# MAMMOTH CANNONCONTROL IS A CONTACT AND VAPOR ACTION FUNGICIDE, MITICIDE, AND INSECTICIDE. THOROUGH COVERAGE IS NECESSARY FOR OPTIMUM CONTROL.

## APPLICATION & DIRECTIONS

Can be used on any plant and is allowed for use on food crops or plants intended for human consumption. Shake well before and after diluting. For best results, use freshly mixed solution. Apply using an atomizer, misting system, pump sprayer, or spraying apparatus. Read and carefully follow instructions for type of sprayer.

## FOLIAR APPLICATION

1. For minor outbreaks, mix 1 oz [30 mL] of this product in 1 gallon of water.
2. For more severe outbreaks, mix up to 3 oz [90 mL] of this product in 1 gallon of water.
3. Use sufficient spray volume to achieve thorough coverage.
4. Agitate tank mix often [every 5-10 minutes] to prevent product separation.

## ROOT DRENCH APPLICATION

Mix 1 oz [30 mL] of this product in 1 gallon of water and apply to growing medium.

## CLONE DRENCH APPLICATION

Can be used on healthy, well established, well hydrated, rooted clones that are at least 21 days old.

1. For minor outbreaks, mix 1 oz [30 mL] of this product in 1 gallon of water.
2. For more severe outbreaks, mix up to 3 oz [90 mL] of this product in 1 gallon of water.
3. Dip the well established, hydrated, healthy clone into the solution for up to 10 seconds while wearing gloves.

## WHEN TO APPLY

1. Apply this product to well hydrated plants once per week as needed. Can be used during vegetative stage and up to the last 2-3 weeks of flowering before harvest.
2. Spray late in the evening or on cloudy days, when plants are not exposed to direct sunlight or artificial lighting for at least 6 hours.
3. Use weekly to eliminate fungal, insect, and mite pressure.
4. Re-entry Interval (REI) does not apply.
5. Do not apply this product when bees are actively foraging.

**NOTE:** As a precautionary trial, apply this product to a few leaves and observe for 2 days. Discontinue use if signs of burning are present. Do not use on newly planted cuttings or on plants stressed by drought. Avoid application when temperature exceeds 90°F [32°C]. This product is useful as a component of Integrated Pest Management (IPM) programs.

EXP:

**\*EFFECTIVE AGAINST:** Powdery Mildew, *Botrytis* [Gray Mold], Mites, Aphids, Whiteflies, Thrips, Fungus Gnats

## PRECAUTIONARY STATEMENTS

### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**WARNING:** Keep out of reach of children and animals. Harmful if swallowed. May cause skin irritation, wear protective gloves when handling. Can cause serious eye irritation, wear eye protection when handling. Avoid contact with eyes, skin, or clothing. Harmful to aquatic life.

### FIRST AID

**IF IN EYE:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call poison control center or doctor for treatment advice. **IF ON SKIN:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call poison control center or doctor for treatment advice. **IF SWALLOWED:** Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

### STORAGE AND DISPOSAL

**STORAGE:** Store only in original container in a dry area inaccessible to children and pets. Keep out of direct sunlight. Protect from freezing and heat. Keep container tightly closed when not in use to prevent evaporation.

**DISPOSAL:** Do not reuse empty container. To avoid waste, use all material in this container by application according to label directions. If waste cannot be avoided, dispose according to state and federal regulations. Never place unused product down any indoor or outdoor drain.
